# PRICING RATES AND TRANSPORTATION INFORMATION

A. For Pricing, Royalty Rates and Transportation Information for December 2011, refer to Attachments 1, 1A, 2, 2A and 3. These attachments are also available in Excel Format.

## B. NOTICES

### *Pricing Rates and Transportation Information*

Effective March 2012, the pricing rates and transportation information will no longer be reported as attachments in the Information Bulletin. A link will be provided to the Natural Gas Royalty Prices and Allowances Information Letter for this data. A new notice will be submitted monthly in the Information Bulletin to report sulphur prices.

### *Correspondence Address for Royalty Deposits*

Effective immediately, all queries relating to Royalty Deposits should be forwarded to the Management Information Team at ManagementAssurance.Team@enr.gov.ab.ca

### *Monthly Sulphur Corporate Average Price Calculation – VA4 Form*

The Department requires royalty clients with an annual sulphur production of 30,000 tonnes or greater in the 2011 production year to file VA4 forms monthly, beginning with the January 2012 production month. The VA4 form is due on or before the 15th day of the second month following the respective production month. A royalty client whose annual sulphur production is less than 30,000 tonnes may choose to file the VA4 forms monthly beginning with January's production month; however, if this choice is made, the client must file VA4 forms for the entire year. The Department will use the VA4 forms to determine each client's monthly Sulphur Corporate Average Price (S-CAP) and the monthly sulphur default price. We calculate each month's sulphur default price as the weighted average unit value of all arms length sales for all clients who filed VA4 forms for that month. The Department will value and invoice the Crown royalty share of sulphur production monthly using the respective S-CAP price for clients who file VA4 forms, and the sulphur default price for clients who chose not to file VA4 forms. The VA4 form is subject to $100 in late filing penalties for each month or part of the month the form is past due. The VA4 form for the production month of January 2012 is due in the department by March 15, 2012.

Royalty clients who file monthly VA4 forms must file annual VA3 forms. The VA3 form remains the primary sulphur valuation tool and the S-CAP determined from each VA3 will replace the entire year's monthly prices determined from the VA4 forms. The VA3 is due on or before April 15th of the year following the year of production. Interest is charged/paid on the Crown royalty difference when adjusting from monthly to annual valuation. The VA3 form is subject to a one-time $1,000 late filing penalty.

The following royalty clients must submit VA4 forms effective with the 2012 production year, which includes any pricing information for each of its consolidated/amalgamated entities:

| Client ID | Client Name | Client ID | Client Name |
|---|---|---|---|
| 0017 | IMPERIAL OIL RESOURCES | 0R46 | HUSKY OIL OPERATIONS LIMITED |
| 0026 | ENCANA CORPORATION | 0RC3 | DIRECT ENERGY MARKETING LIMITED |
| 0039 | TALISMAN ENERGY INC. | 0YT7 | MANCAL ENERGY INC. |
| 0BP8 | PENN WEST PETROLEUM LTD. | 0Z0H | HARVEST OPERATIONS CORP. |
| 0CW8 | COMPTON PETROLEUM CORPORATION | A2F0 | SHELL CANADA ENERGY |
| 0F3F | DEVON CANADA | A2TG | TAQA NORTH LTD. |
| 0HE9 | CANADIAN NATURAL RESOURCES LIMITED | A517 | WESTFIRE ENERGY LTD. |
| 0JL8 | APACHE CANADA LTD. | A5R5 | PENGROWTH ENERGY CORPORATION |
| 0JT1 | EXXONMOBIL CANADA ENERGY | A5RE | ENERPLUS PARTNERSHIP |
| 0L0D | SUNCOR ENERGY OIL AND GAS PARTNERSHIP | A637 | NEP CANADA ULC |
| A65L | SINOPEC DAYLIGHT ENERGY LTD. | | |

## C. MONTHLY INFORMATION

### *December 2011 Royalty Due March 30*

- **Royalty clients are to remit the total amount payable shown on the March 2012 Statement of Account by March 30, 2012**. If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided.

- **The March 2012 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your December 2011 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.**

- Current period interest will not be charged on current invoice charges for the production month of December 2011 if it is paid in full by March, 2012.

- Current period interest will accrue on any overdue charges commencing the first day after the due-date until it is paid in full.

  **Note: If the due date falls on a non-business day, the next business day will apply as the due date.**

- Cheques are payable to the Minister of Finance, Province of Alberta.

## *January 2012 VA4 Due March 15*

The VA4 forms for the production month of January 2012 are due in the department offices by March 15, 2012.

**Note: If the due date falls on a non-business day, the next business day will apply as the due date for VA4 forms.**

## *Registry Deadline Submissions*

The Registry deadline submissions for SAF, OAF, and Volumetrics are posted in the Petroleum Registry of Alberta website "Reporting Calendars" under Calendars. Changes to this calendar will be posted on the Registry website home page in "Broadcast Messages."

## *Interest Rate February 2012*

Alberta Energy's interest rate for February is 4.00%.

## *November Provisional Assessment Charge*

The summary of Provisional Assessment Charges for all production periods in the November 2011 billing period was:

| First Time Provisional Assessment | Reversals of Provisional Assessments | Net Provisional Assessment |
|---|---|---|
| $11,123,253.08 | ($9,838,935.98) | $1,284,317.10 |

## *November Penalty Charges*

The penalty table below shows at the form level, the total penalty charges and reversals, for the November 2011 billing period.

| Forms | Penalty Charges | Penalty Reversals | Net Penalty Charges for 2011/11 |
|---|---|---|---|
| AC2 | $304,800 | $0 | $304,800 |
| AC4 | $800 | $0 | $800 |
| AC5 | $4400 | $0 | $4400 |
| NGL1 | $0 | $0 | $0 |
| VA2 | $0 | $0 | $0 |
| VA3 | $0 | $0 | $0 |
| VA4 | $100 | $0 | $100 |
| **Total** | **$310,100** | **$0** | **$310,100** |

### *Gas Royalty Operations Support*

Upon request, Gas Royalty Operations staff will be available to meet with clients who need assistance with royalty reporting. Royalty clients requiring assistance are encouraged to contact your respective Gas Royalty Volumetric and Cost Reporting portfolio representative, as identified in Section F of this bulletin, to arrange a meeting.

### *Well Event Measured Depth Determination Letter*

The department has issued a "Well Event Measured Depth Determination Letter" under the Report Package DOE – Gas to facility operators via the PRA on February 1 and 14, 2012. This letter shows the confirmed Measured Depth (MD) of each active well event that will be used to calculate the Depth Factor (DF) of the quantity component rate under the new royalty formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through the PRA to well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

## D. INFRASTRUCTURE DATA CHANGES

### *Client ID Listing*

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petroleum Registry website at:

http://www.petroleumregistry.gov.ab.ca

The department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry at 780-422-1395, if you have any questions regarding the information supplied on this listing.

### *Client Status Changes*

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at 780-422-1395.

### *Nova Tolls - Multiple Gas Reference Prices*

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under Facility Royalty Trigger Factors and Meter Station Ties.

## E. REMINDERS

### *Information Sessions*

Volumetric & Cost Reporting will be conducting two information sessions on February 28, 2012, at the ConocoPhillips Theatre, Gulf Canada Square, 401 – 9th Avenue S.W. Calgary Alberta.

The morning session is from 10:00 a.m. to 12:00 p.m. The afternoon session is from 1:30 p.m. to 3:30 p.m. The content of both sessions is the same.

The following topics will be covered:

- Allowable Cost Forms (AC1, AC2, AC3 and AC5), Facility Effective Royalty Rate, Cost Restrictions, Form Deadlines, Penalty Implications, and Helpful Hints.
- RMF2, RMF2-T and RMF3 Working Interest Ownership portion, and Helpful Hints.
- Potential process changes to Provisional Assessment, Department of Energy Ensure Complete report, and duplicate pricing information communicated to industry in the Information Letter and Information Bulletin.

Please email Wendy Stenbeck at wendy.stenbeck@gov.ab.ca to register for one of these sessions.

## ***Submission of Production Year 2011 Allowable Cost (AC) and Sulphur Corporate Average Price Calculation (VA3) Submissions***

Allowable Cost (AC1, AC2, AC3 and AC5) and Annual Corporate Average Price Calculation - Sulphur (VA3) submissions for the 2011 production year are due on the following dates:

| Form Type | Due Date | Penalty |
|---|---|---|
| AC1 | March 01, 2012 | - |
| VA3 | April 16, 2012 | $1,000/One time only |
| AC2 | April 30, 2012 | $100/Form/Month upon due date to a maximum of $600 |
| AC3 | May 15, 2012 | - |
| AC5 | May 15, 2012 | $100/Form/Month upon receipt to a maximum of $600 |

Operating costs must be reported with capital costs (AC2) on one submission.
Details on the changes to Gas Cost Allowance are available on the Alberta Energy Internet address: www.energy.alberta.ca. From Our Business, navigate to Natural Gas, Legislation, Guidelines & Policies, Gas Royalty Information Bulletins, Changes to Gas Cost Allowance link.

Facility Cost Centre (FCC) operators are required to complete all allowable cost submissions (initial and amended filings for current and prior production years) on the Registry. Although use of the Registry to submit AC3 and AC5 data is mandatory for operators, it remains voluntary for non-operators. However, non-operators are strongly encouraged to use the Registry to submit and retrieve their AC3 and AC5 data. The business rules and submission method for VA3 submissions remain the same with notification from the department informing clients that their submissions have been processed. Annual allowable cost submissions are processed nightly except during an invoice run cycle. New facility cost centre set-ups are processed within four hours of receipt in the morning, and an overnight turnaround if received in the afternoon. New

facility cost centre set-ups continue to be processed during an invoice run cycle. Sulphur Corporate Average Price submissions are processed as they are received.

The department encourages timely submissions to allow sufficient turnaround time for corrections. The font size on faxed forms must be 10 point or greater and must not be bolded. Penalties will apply where valid system acceptable submissions are not received by the filing deadline. Barring the department's responsibility, inability to submit annual cost submissions on the Registry and/or illegible script will not reverse a penalty once imposed.

If you have any questions or require clarification, please contact your Volumetric & Cost Reporting portfolio representative, as identified in Section F of this bulletin.

## ***Capital and Operating Cost Allowance Filing - Expected AC2 Reports on the Registry***

The Crown deducts allowances for costs incurred and paid in Alberta for compressing, gathering and processing its royalty share of gas and gas products. Annual capital and operating cost allowances are combined on the AC2-V4 with an ability to allocate these cost allowances among working interest owners and multiple delivery facilities. The Facility Cost Centre (FCC) operator, on record at year end, is responsible for filing the AC2-V4 via the Registry.

The Expected AC2 Report identifies the FCC operator as of a specific date, the status of the FCC, its effective date and whether a valid AC2 was submitted for a production year.

The Expected AC2 Report is grouped by an Energy Resources Conservation Board (ERCB) Facility and related FCC. The report displays the following:

- Facility ID and Facility Name
- FCC ID and FCC Name
- "Y"(yes) and "N"(no) Indicators to identify whether or not the FCC is fully depreciated
- The FCC Operator Effective Date
- "Y"(yes) and "N"(no) Indicator to determine whether or not an AC2 was submitted for the production year
- All consolidated/amalgamated companies have been included within this report, where applicable.

The information in the report reflects the department's records as of the file preparation date and does not reflect submissions subsequently received and/or processed. Any submissions (AC1, AC2, Invoice Consolidation Concurrence – ICC1, etc.) processed after the report date will not be shown. The absence of a company name or FCC from these reports will not be an acceptable reason to waive a penalty once assessed.

The Expected AC2 Report is available in PDF, TXT and CSV formats and is generated weekly during the Gas Cost Allowance reporting season. The Expected AC2 Report will be available on the Registry weekly starting in February 2012 until mid-May 2012.

If you are not the operator for the FCC identified on the report, please submit a Facility Cost Centre Set-Up/Change (AC1-V2) via the Registry identifying the change in operator and its effective date. An AC1 submission identifying an FCC change in operator is due on or before the last day of the month following the production month in which the change occurred.

FCCs that are shut-in or terminated for an entire production year will not appear on the report. Operators of fully depreciated (zero remaining useful life) FCCs remain responsible for AC2-V4 submissions. Submissions are required to ensure the department has correctly identified Capital and Operating Cost Allowance allocations to working interest owners and/or other delivery facilities as well as Custom Processing Adjustment Factors for the FCC.

AC2-V4 submissions are required to be filed on the Registry. An AC2-V4 can be entered online or by batch. If a system acceptable AC2-V4 submission is not received and processed by the filing deadline (April 30th of the year following the production year to which it relates), a penalty will be assessed.

Please contact The Petroleum Registry of Alberta, Service Desk, at 1-800-992-1144 regarding access to or use of the Registry. The deadline for filing an AC2-V4, for the production year 2011, is April 30, 2012.

## ***Custom Processing Allowance Fees Paid – Expected AC5 Reports on the Registry***

Royalty clients who have incurred and paid for compressing, gathering and/or processing gas and gas products on a fee-for service basis, in Alberta, are required to submit an AC5-V4 to the department by May 15th of the year following the production year to which it relates. This includes custom processing fees associated with freehold, purchased, and out-of-province volumes. The Expected AC5 Report provides a complete list of the Energy Resources Conservation Board (ERCB) facilities and related Facility Cost Centres (FCCs) where the operator has allocated custom user volumes to the royalty client in Parts 6 and 10 (Custom Processing Adjustment Factor) of a Capital & Operating Cost Allowance AC2-V4 submission.

This report identifies the ERCB facilities and FCCs that the royalty client requires to file an AC5-V4. The information in the report identifies the department's records as of the file preparation date and does not reflect submissions subsequently received and/or processed.

The Expected AC5 Report is grouped by ERCB Facility and related FCC. The report displays the following:

- FCC ID, FCC Name & FCC Type
- Operator ID and Name allocating custom user volumes
- Allocated Custom Processing (CP) volumes in 103m3

In addition, as of the report generation date, there are "Y" (yes) and "N" (no) indicators for the previous and current production years that identify whether the:

- department has received a valid AC5 submission for the royalty client and
- the ERCB facility has been reported on the AC5 submission.

If a system acceptable AC5-V4 submission is not received and processed by its filing deadline (May 15th of the year following the production year to which it relates) it is subject to penalty charges upon receipt of the form. The absence of a company name or an FCC from these reports will not be an acceptable reason for a waiver of penalty.

The Expected Custom Processing Fees Paid (AC5) Report is available in PDF, TXT and CSV formats. The Expected AC5 Report will be available on the Registry weekly starting the second week of February 2012 until the last week of May 2012.

Operators of FCCs must use the Registry to retrieve the report. Non-operators and other royalty clients that currently submit and receive hard documents will continue to receive the Expected AC5 Report by mail. Electronic filers are required to submit their Allowable Cost forms via the Registry.

If you have any questions, please contact your Volumetric & Cost Reporting portfolio representative, as identified in Section F of this bulletin.

Please contact The Petroleum Registry of Alberta, Service Desk, at 1-800-992-1144 regarding access to or use of the Registry. The deadline for filing an AC5-V4, for the production year 2011, is May 15, 2012.

## *Statutory Requirement and Recalculation of 2007 Royalty*

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of royalty does not occur on a monthly basis. Section 38 of the Mines and Minerals Act provides for recalculation of royalty that can be initiated in two ways:
1. On the department's initiative in conjunction with an audit or examination; or
2. At the request of a royalty payer.

**Department Initiated Amendments**
Please refer to Attachment 4 for a list of Deep Marginal Gas Wells, Royalty Adjustment Program, and for Deep Gas Royalty Holiday Program that require the fifth ($5^{th}$) year to be open for the 2007 production year. The department will contact clients who are impacted. For more information, please contact Joyce Chen at 780-427-1550.

Please refer to Attachment 5 for a list of facilities that require the fifth ($5^{th}$) year to be open. These facilities and the wells tied to these facilities require the fifth ($5^{th}$) year to be open for the 2007 production year. The department will contact clients who are impacted. For more information, please contact Mary Spearing at 780-427-8630 or Joyce Chen at 780-427-1550.

**2007 Production Year Audits in Progress**
Non-operator partners are advised that certain Enhanced Oil Recovery, CO2 Project Credit claims, allowable costs, custom processing fees, capital costs, custom processing

adjustment factor (CPAF), and volumetric reporting discrepancy audits are currently in progress.

It is anticipated that these audits will be completed before December 31, 2011. However, should circumstances warrant it, completion of these audits will occur in 2012. The list of Facility Cost Centres affected by the custom processing adjustment factor review at year end can be found in Attachment 6.

Royalty clients are also reminded that amendments received by the department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the department to commence a review of the amendments prior to the end of the year, the department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Kris Pretty of the Compliance & Assurance Group at 403-297-8785.

**Industry Recalculation of 2007 Royalty**

Industry initiated royalty recalculation requests for the 2007 production year must be submitted in writing to the attention of Pat Van Meer, Manager, Volumetric & Cost Reporting, Gas Royalty Operations. This request should have been received by the department on or before December 31, 2011 and it must include the following:

Identification of the recalculation facility or facilities

- A list of the royalty variables proposed for recalculation
- The reason for the recalculation
- The production year of the recalculation
- An order of magnitude estimate (i.e. >$100,000, >$1 Million, >$2 Million, etc.,) of the recalculation requested
- Identification of all royalty clients that may be impacted by the request (this is necessary, especially in situations where volumes may be cascaded to another client who is expected to respond to the cascade)
- The time lines for recalculation: preparation and submission to the Crown including a reasonable time frame for the Crown to review the recalculation
- Confirmation from the operator that the affected partner(s) have been notified
- A sample copy of the submission pertaining to a particular production month in paper or electronic format (e.g., excel)

If the request meets the department's terms and conditions for recalculation, it will be approved. A request made during the fourth year following the production year, must be completed before the end of the fifth year, with a reasonable time for a review by the department, prior to the end of the fifth year.

If you have any questions regarding this process, please contact your Volumetric & Cost Reporting portfolio representative, as identified in Section F of this bulletin.

### *AB WG 99999 Reporting Review*

The department is reviewing the volume/gigajoules of gas and gas products reported under stream ID AB WG 99999 for the production years 2007 and onwards. This review will be completed in 2012.

The objective of the review is to ensure that all gas and gas products reported under stream ID AB WG 99999 are valid and are accurately allocated in relation to the royalty paid gas and gas products received at the facility or facilities which are subsequently triggered for royalty.

Where it is found that AB WG 99999 volumes are not substantiated by the receipt of royalty paid volumes, royalty clients will be notified to explain the methodology used to arrive at the AB WG 99999 volumes and to submit amendments if reporting errors are found.

### *Alberta Energy – Gas Royalty Operations Calendar*

A 2012 calendar is attached, which provides critical filing dates that clients are required to meet with respect to Gas Royalty processing cut-off periods.

## F. POINTS OF CONTACT

### *Petroleum Registry of Alberta*

The Petroleum Registry of Alberta Service Desk is the focal point for communications with the Registry regarding preparations for, access to, or utilization of the Registry.
To contact the Petroleum Registry of Alberta Service Desk:
Phone: 403-297-6111 or 1-800-992-1144
Fax: 403-297-3665
Email: petroleumregistry.energy@gov.ab.ca

### *Alberta Energy Internet*

Prices, Royalty Rates and Transportation Information are available on the Alberta Energy Internet address: www.energy.alberta.ca, from "Our Business", navigate to "Natural Gas", "About Natural Gas", "Prices", "Alberta Natural Gas Reference Price (ARP)".

In addition, both the Gas Royalty Information Bulletins and Information Letters are also available under "Our Business", navigate to "Natural Gas", "Legislation, Guidelines & Policies".

### *Volumetric & Cost Reporting*

Volumetric & Cost Reporting is structured as a Business Associate client portfolio system, which

assigns a given Business Associate to one of three teams. Listed below is the portfolio breakdown along with the Volumetric & Cost Reporting Team Leads and phone numbers. The portfolios are divided by company name and not by BA ID.

Example: If your company name is the "Gas Company" you would call the C – G team at 780-644-1202.

| Business Associate | Phone Number and E-mail Address | Team Lead |
|---|---|---|
| **Numbered companies, A, B, H-P** | 780-644-1201<br>VCR1@gov.ab.ca | Mary Spearing |
| **C – G** | 780-644-1202<br>VCR2@gov.ab.ca | Lily Hiew |
| **Q – Z** | 780-644-1203<br>VCR3@gov.ab.ca | Jyoti Bhambhani |

Gas Royalty Reception: 780-422-8727
Fax: 780-427-3334 or 780-422-8732
Alberta Toll Free: 780-310-0000

Hours of operation are 8:15 a.m. to 4:30 p.m. Voice messages left after 4:30 p.m. will be answered the next business day.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the "Supra" business associate, or Royalty payer. Below are some guidelines for clients who are unsure which Volumetric and Cost Reporting Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the "Supra" business associate (Royalty Payer).
   i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Volumetric and Cost Reporting regarding business for ABC Oil and Gas, you would call Team 3 (Q-Z) (780-644-1203) because Zed Exploration is now the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.

2. **Asset Purchase** - Call the team responsible for your company.
   i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Volumetric and Cost Reporting regarding business for 123 Gas, you would call Team 1 (# Co., A, B, & H-P) (780-644-1201) because you have only purchased assets.

3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client's company.

i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 1 (# Co., A, B, & H-P) (780-644-1201) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized for their company.

Effective January 2011 production period, the royalty rates for methane and ethane are calculated based on a modified royalty formula. The Alberta Royalty Framework Natural Gas Formulas effective the production years 2011, 2010 and 2009 and for Transition, are available on the Alberta Energy Internet address: http://www.energy.alberta.ca

From the home page, select the Alberta Royalty Framework tab to navigate to select the appropriate formula.
